#### **Antero Resources Reports First Quarter 2015 Financial Results**

**Denver, Colorado, April 29, 2015**—Antero Resources Corporation (NYSE: AR) ("Antero" or the "Company") today released its first quarter 2015 financial results. The relevant financial statements are included in Antero's Quarterly Report on Form 10-Q for the quarter ended March 31, 2015, which has been filed with the Securities and Exchange Commission ("SEC").

#### **Highlights for the First Quarter of 2015:**

- Net daily gas equivalent production averaged 1,485 MMcfe/d, an 89% increase compared to the prior year quarter and a 17% increase sequentially
- Net daily liquids production, included in the above, averaged 40,074 Bbl/d, a 145% increase compared to the prior year quarter and a 32% increase sequentially
- Realized natural gas price before hedging averaged \$2.81 per Mcf, a \$0.17 negative differential to Nymex
- Realized natural gas equivalent price including NGLs, oil and hedges averaged \$4.42 per Mcfe
- Adjusted net income of \$71 million (\$0.27 per share), a 20% decrease compared to the prior year quarter and a 9% decrease sequentially
- · Adjusted EBITDAX of \$355 million, a 30% increase compared to the prior year quarter and a 7% increase sequentially
- Hedge portfolio was increased to 2.5 Tcfe of future natural gas equivalent production at an average index price of \$4.17 per MMBtu

#### **Recent Developments**

#### Antero Resources 2015 Guidance

As previously disclosed on April 15, 2015, Antero estimates its daily production will average 1,375 to 1,425 MMcfe/d for the remaining nine month period of 2015, resulting in full year 2015 average net daily production in excess of 1.4 Bcfe/d including average net daily liquids production of over 37,000 Bbl/d. The remainder of year production guidance reflects the Company's previously announced drilling and capital budget, includes reduced completion activity in the second and third quarters in the Marcellus, and results in the deferral of 50 well completions into 2016. The objective of the completion deferrals is to access currently more favorable pricing markets for incremental Marcellus gas production upon the completion of a regional gathering pipeline that is now under construction. Additionally, during the first quarter Antero spent 36% of its 2015 drilling and completion capital budget of \$1.6 billion. Antero expects the remaining 64% to be spent ratably for the remainder of the year after reducing its drilling rig count from 21 to 11 rigs and completion crews from 10 to seven crews. Antero reaffirms the remaining aspects of its guidance initially announced on January 20, 2015.

#### Capital Markets Activity

On March 31, 2015, Antero closed an upsized underwritten public offering of 14,700,000 shares of the Company's common stock, including shares the company issued to the underwriter under a 30-day option to purchase additional shares. The Company received net proceeds of approximately \$538 million after underwriter's discounts and commissions, which was used to repay a portion of the outstanding borrowings under its credit facility.

On March 17, 2015, Antero closed a private placement of \$750 million of 5.625% senior unsecured notes due June 2023 at par. Antero received net proceeds of approximately \$739 million after deducting the initial purchasers' discounts and estimated expenses, which were used to repay a portion of the outstanding borrowings under its credit facility.

1

#### First Quarter 2015 Financial Results

As of March 31, 2015, Antero owned a 69.7% limited partner interest in Antero Midstream Partners LP ("Antero Midstream"). Antero Midstream's results are consolidated with Antero's results.

For the three months ended March 31, 2015, the Company reported net income attributable to common stockholders of \$394 million, or \$1.49 per basic and diluted share, compared to a net loss of \$95 million in the first quarter of 2014. The GAAP net income for the first quarter of 2015 included the following items:

- · Non-cash gains on unsettled hedges of \$575 million (\$358 million net of tax)
- · Non-cash equity-based stock compensation expense of \$28 million (\$23 million net of tax)
- · Impairment of unproved properties of \$9 million (\$5 million net of tax)
- · Contract termination and rig stacking expenses of \$9 million (\$6 million net of tax)

Without the effect of these non-cash or unusual items, the Company's results for the first quarter of 2015 were as follows:

- Adjusted net income attributable to common stockholders of \$71 million, or \$0.27 per basic and diluted share, a 20% decrease compared to the first quarter of 2014
- Adjusted EBITDAX of \$355 million, a 30% increase compared to the first quarter of 2014
- Cash flow from operations before changes in working capital of \$292 million, a 23% increase compared to the first quarter of 2014

For a description of adjusted net income attributable to common stockholders, Adjusted EBITDAX and cash flow from operations before changes in working capital and reconciliations to their nearest comparable GAAP measures, please read "Non-GAAP Financial Measures."

Net daily production for the first quarter of 2015 averaged 1,485 MMcfe/d, an 89% increase as compared to the first quarter of 2014 and a 17% increase from the fourth quarter of 2014. Net daily production was comprised of 1,245 MMcf/d of natural gas (84%), 36,006 Bbl/d of natural gas liquids ("NGL"s) (14%) and 4,068 Bbl/d of crude oil (2%). First quarter 2015 net liquids daily production (NGLs and oil) of 40,074 Bbl/d increased 145% as compared to the first quarter of 2014 and 32% from the fourth quarter of 2014.

Average natural gas price before hedging decreased 44% from the prior year quarter to \$2.81 per Mcf, a \$0.17 per Mcf negative differential to Nymex, as Nymex natural gas prices decreased 40% from the prior year quarter. Approximately 64% of Antero's first quarter 2015 natural gas revenue was realized at favorable price indices, including Columbia Gas Transmission (TCO), Chicago, MichCon and Nymex. The remaining 36% of natural gas production was priced at various less favorable index pricing points, including Dominion South and Tetco M2. Antero's average realized natural gas price after hedging for the first quarter of 2015 was \$4.37 per Mcf, a \$1.39 positive differential to the Nymex average price for the period. This represents a 13% decrease compared to the prior year quarter. During the quarter, Antero realized a cash settled natural gas hedge gain of \$175 million, or \$1.56 per Mcf.

Antero's average realized C3+ NGL price before hedging for the first quarter of 2015 was \$24.31 per barrel, or approximately 50% of the WTI oil price average for the period. This represents a 61% decrease for NGL prices compared to the prior year quarter as WTI oil prices decreased 51% from the prior year quarter. The Company's average realized NGL price after hedging represented a 57% decrease from the prior year quarter NGL price to \$26.23 per barrel, or 54% of the WTI oil price average for the period. For the first quarter of 2015, Antero realized a cash settled NGL hedge gain of \$6 million, or \$1.92 per barrel. Antero's NGL barrels are comprised of propane, butane and heavier liquids, as ethane is rejected at the gas processing plant and sold in the natural gas stream.

Antero's average realized oil price before hedging for the first quarter of 2015 was \$34.03 per barrel, a \$14.51 per barrel negative differential to the WTI price. This represents a 62% decrease compared to the prior year quarter. The Company's average realized oil price after hedging decreased 50% from the prior year quarter to \$45.08 per barrel, a \$3.46 per barrel negative differential to the WTI price. For the first quarter of 2015, Antero realized a cash settled oil hedge gain of \$4 million, or \$11.05 per barrel.

Antero's liquids production and realizations for the first quarter of 2015 added an incremental \$0.23 per Mcfe to the average gas equivalent price per unit, increasing the average natural gas realized price before hedging from \$2.81 per Mcfe to \$3.04 per Mcfe on a gas equivalent basis. Including \$185 million of total cash settled realized hedge gains for all products, the average all-in natural gas equivalent price, including NGLs, oil and hedge settlements, was \$4.42 per Mcfe for the first quarter of 2015.

Total revenues for the first quarter of 2015 were \$1.2 billion as compared to \$168 million for the first quarter of 2014. Revenue for the first quarter of 2015 included a \$575 million non-cash gain on unsettled hedges while the first quarter of 2014 included a \$248

2

million non-cash loss on unsettled hedges. Liquids production contributed 22% of combined natural gas, NGLs and oil revenue before hedging in the first quarter of 2015. Adjusted net revenue increased 57% to \$655 million compared to the first quarter of 2014 (including cash-settled hedge gains and losses but excluding non-cash unsettled hedge gains and losses). For a reconciliation of adjusted net revenue to operating revenue, the most comparable GAAP measure, please read "Non-GAAP Financial Measures."

Marketing revenue for the first quarter of 2015 was \$58 million. Antero's marketing revenue was primarily associated with the sale of third-party gas purchased to utilize the Company's excess firm transportation capacity on the Rockies Express Pipeline as well as capture the positive spread between Tetco M2 pricing and Chicago/MichCon pricing. Marketing expense for the first quarter of 2015 was \$73 million. The largest components of marketing expense were the fixed transportation costs related to excess capacity, the cost of purchasing third-party gas and the fixed transportation costs associated with the Company's underutilized ATEX ethane pipeline capacity. Net marketing expense was \$15 million or \$0.12 per Mcfe for the first quarter of 2015.

Per unit cash production expense (lease operating, gathering, compression, processing and transportation, and production tax) for the first quarter of 2015 was \$1.46 per Mcfe which is a 6% decrease compared to \$1.55 per Mcfe in the prior year quarter. The decrease in cash production expense was driven by lower production taxes due to lower commodity prices. Per unit general and administrative expense for the first quarter of 2015, excluding non-cash equity-based compensation expense, was \$0.23 per Mcfe, a 26% decrease from the first quarter of 2014. The decrease was primarily driven by the significant increase in net production which was somewhat offset by an increase in the Company's workforce. Per unit depreciation, depletion and amortization expense increased 6% from the prior year quarter to \$1.37 per Mcfe, primarily driven by higher depreciation on gathering and compression and water assets as Antero Midstream and Antero continued to build out these respective systems in the rich gas areas of the Marcellus and Utica Shale plays.

Adjusted EBITDAX of \$355 million for the first quarter of 2015 was 30% higher than the prior year quarter due to increased production and revenue. EBITDAX margin for the quarter was \$2.65 per Mcfe, representing a 32% decrease from the prior year quarter due to lower commodity prices. For the first quarter of 2015, cash flow from operations before changes in working capital increased 23% from the

prior year to \$292 million.

For a description of Adjusted EBITDAX and EBITDAX margin, cash flow from operations before changes in working capital and adjusted net income attributable to common stockholders and reconciliations to their nearest comparable GAAP measures, please read "Non-GAAP Financial Measures."

#### **Antero Midstream Financial Results**

Antero Midstream's low pressure gathering volumes for the first quarter of 2015 averaged 935 MMcf/d, a 182% increase from the prior year quarter and 27% sequentially. High pressure gathering and compression volumes for the first quarter of 2015 averaged 1,134 MMcf/d and 358 MMcf/d, respectively, representing 800% and 894% year over year growth from the first quarter of 2014. Condensate gathering volumes averaged 2 MBbl/d in the first quarter of 2015. The high growth in throughput volumes was driven by production growth from Antero.

Antero Midstream's revenue for the first quarter of 2015 was \$52 million as compared to \$12 million for the prior year quarter, primarily driven by increased throughput volumes across Antero Midstream's systems. Revenues in the first quarter of 2015 were comprised entirely of fixed fees per unit from Antero. Direct operating expenses totaled \$12 million and general and administrative expenses totaled \$10 million, including \$5 million of non-cash equity-based compensation. Total operating expenses were \$36 million including \$15 million of depreciation. Operating income for the first quarter of 2015 was \$16 million as compared to \$1 million in the prior year quarter, while net income was \$16 million as compared to a \$1 million for the prior year quarter.

Antero Midstream invested \$126 million in gathering and compression projects in the first quarter of 2015, including \$100 million in the Marcellus and \$26 million in the Utica.

On April 15, 2015, Antero Midstream declared a cash distribution of \$0.18 per unit (\$0.72 per unit annualized) for the first quarter of 2015. The distribution represents a 6% increase compared to the Partnership's minimum quarterly distribution of \$0.17 per unit (\$0.68 per unit annualized). The distribution is payable on May 27, 2015 to unitholders of record as of May 13, 2015.

Antero Midstream results were released today and are available at www.anteromidstream.com.

#### **Balance Sheet and Liquidity**

As of March 31, 2015, the Company's consolidated net debt was \$4.0 billion, of which \$790 million were borrowings outstanding under the Company's \$4.0 billion credit facility. Including the \$474 million in letters of credit outstanding, the company had \$3.9

3

billion in available liquidity on a consolidated basis as of March 31, 2015. For a reconciliation of consolidated net debt to consolidated total debt, the most comparable GAAP measure, please read "Non-GAAP Financial Measures."

#### First Quarter 2015 Capital Spending

Antero's drilling and completion costs for the three months ended March 31, 2015 were \$569 million. In addition, the Company invested \$52 million for land, \$22 million for water projects in the Marcellus and Utica Shale plays and \$2 million in other capital projects.

#### **Hedge Position**

Antero currently has hedged 2.5 Tcfe of future natural gas equivalent production using fixed price swaps covering the period from April 1, 2015 through December 31, 2021 at an average index price of \$4.17 per MMBtu.

The following table summarizes Antero's hedge positions held as of April 28, 2015:

<u>Period</u>	Natural Gas MMBtu/d	 Average Index price (\$/MMBtu)	Liquids Bbl/d	 Average Index price
<u>2Q 2015:</u>

4

Approximately 66% of Antero's 2015 natural gas financial hedge portfolio is made up of Nymex Henry Hub hedges and 34% is tied to Appalachian Basin or Gulf Coast indices. Antero has the ability to physically deliver a substantial portion of its natural gas production through direct firm transportation to the Columbia Gulf Coast Onshore index near Henry, Louisiana, the index for Nymex Henry Hub pricing, essentially eliminating basis risk on the Company's Nymex Henry Hub hedges. Antero has 12 different counterparties to its hedge contracts, all of which are lenders in the Company's bank credit facility.

Additionally, Antero has hedged 259 Bcf of basis on future production using fixed price TCO basis swaps covering the period from April 1, 2015 through December 31, 2017 at an average basis differential of \$(0.40) per MMBtu.

#### **Conference Call**

A conference call is scheduled on Thursday, April 30, 2015 at 9:00 am MT to discuss the results. A brief Q&A session for security analysts will immediately follow the discussion of the results for the quarter. To participate in the call, dial in at 888-347-8204 (U.S.), 866-605-3851 (Canada), or 412-902-4229 (International) and reference passcode 10063062. A telephone replay of the call will be available until Friday, May 8, 2015 at 9:00 am MT at 877-870-5176 (U.S.) or 858-384-5517 (International) using the same passcode.

A simultaneous webcast of the call may be accessed over the internet at www.anteroresources.com. The webcast will be archived for replay on the Company's website until May 8, 2015 at 9:00 am MT.

#### Presentation

An updated presentation will be posted to the Company's website before the April 30, 2015 conference call. The presentation can be found at www.anteroresources.com on the homepage. Information on the Company's website does not constitute a portion of this press release.

5

#### **Non-GAAP Financial Measures**

Adjusted net revenue as set forth in this release represents total operating revenue adjusted for certain non-cash items, including unsettled hedge gains and losses. Antero believes that adjusted net revenue is useful to investors in evaluating operational trends of the Company and its performance relative to other oil and gas producing companies. Adjusted net revenue is not a measure of financial performance under GAAP and should not be considered in isolation or as a substitute for total operating revenue as an indicator of financial performance. The following table reconciles total operating revenue to adjusted net revenue:

		Three months ended March 31,				
	2014 2015					
Total operating revenue	\$	168,207	\$	1,229,687		
Hedge (gains) losses		248,929		(759,554)		
Cash receipts (payments) for settled hedges		(1,071)		184,840		
Adjusted net revenue						

Adjusted net revenue

T.	416.065	· ·	654 072
'D	410.00.	'D	0.34.97.3

Adjusted net income attributable to common stockholders as set forth in this release represents net income (loss) attributable to common stockholders, adjusted for certain items. Antero believes that adjusted net income attributable to common stockholders is useful to investors in evaluating operational trends of the Company and its performance relative to other oil and gas producing companies. Adjusted net income attributable to common stockholders is not a measure of financial performance under GAAP and should not be considered in isolation or as a substitute for net income (loss) attributable to common stockholders as an indicator of financial performance. The following table reconciles net income (loss) attributable to common stockholders to adjusted net income attributable to common stockholders:

Cash flow from operations before changes in working capital as presented in this release represents net cash provided by operating activities before changes in working capital. Cash flow from operations before changes in working capital is widely accepted by the investment community as a financial indicator of an oil and gas company's ability to generate cash to internally fund exploration and development activities and to service debt. Cash flow from operations before changes in working capital is also useful because it is widely used by professional research analysts in valuing, comparing, rating and providing investment recommendations of companies in the oil and gas exploration and production industry. In turn, many investors use this published research in making investment decisions. Cash flow from operations before changes in working capital is not a measure of financial performance under GAAP and should not be considered in isolation or as a substitute for cash flows from operating, investing, or financing activities, as an indicator of cash flows, or as a measure of liquidity.

The following table reconciles net cash provided by operating activities to cash flow from operations before changes in working capital as used in this release:

6

	Three months ended March 31,			
		2014	2015	
Net cash provided by operating activities	\$	274,307	351,394	
Net change in working capital		(36,646)	(58,937)	
Cash flow from operations before changes in working				
capital	\$	237,661	292,457	

The following table reconciles consolidated total debt to consolidated net debt as used in this release:

	As of March 31, 2015
Bank credit facility	\$ 790,000
6.00% senior notes due 2020	525,000
5.375% senior notes due 2021	1,000,000
5.125% senior notes due 2022	1,100,000
5.625% senior notes due 2023	750,000
Net unamortized premium	7,295
Consolidated total debt	4,172,295
Cash and cash equivalents	185,491
Consolidated net debt	\$ 3,986,804

Adjusted EBITDAX is a non-GAAP financial measure that Antero defines as net income (loss) including noncontrolling interest after adjusting for those items shown in the table below. Adjusted EBITDAX, as used and defined by the Company, may not be comparable to similarly titled measures employed by other companies and is not a measure of performance calculated in accordance with GAAP. Adjusted EBITDAX should not be considered in isolation or as a substitute for operating income, net income (loss), cash flows from operating, investing and financing activities, or other income or cash flow statement data prepared in accordance with GAAP. Adjusted EBITDAX provides no information regarding a company's capital structure, borrowings, interest costs, capital expenditures, and working capital movement or tax position. Adjusted EBITDAX does not represent funds available for discretionary use because those funds may be required for debt service, capital expenditures, working capital, income taxes, franchise taxes, exploration expenses, and other commitments and obligations. However, Antero's management team believes Adjusted EBITDAX is useful to an investor in evaluating

the Company's financial performance because this measure:

- is widely used by investors in the oil and gas industry to measure a company's operating performance without regard to items excluded from the calculation of such term, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired, among other factors;
- · helps investors to more meaningfully evaluate and compare the results of Antero's operations from period to period by removing the effect of its capital structure from its operating structure; and
- · is used by the Company's management team for various purposes, including as a measure of operating performance, in presentations to its board of directors, as a basis for strategic planning and forecasting and by its lenders pursuant to covenants under its credit facility and the indentures governing the Company's senior notes.

There are significant limitations to using Adjusted EBITDAX as a measure of performance, including the inability to analyze the effect of certain recurring and non-recurring items that materially affect Antero's net income (loss), the lack of comparability of results of operations of different companies and the different methods of calculating Adjusted EBITDAX reported by different companies. The following table represents a reconciliation of the Company's net income (loss) including noncontrolling interest to Adjusted EBITDAX, a reconciliation of total Adjusted EBITDAX to net cash provided by operating activities and a reconciliation of realized price before cash receipts for settled hedges to Adjusted EBITDAX margin:

Antero Resources is an independent natural gas and oil company engaged in the acquisition, development and production of unconventional liquids-rich natural gas properties located in the Appalachian Basin in West Virginia, Ohio and Pennsylvania. The Company's website is located at www.anteroresources.com.

This release includes "forward-looking statements". Such forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond Antero's control. All statements, other than historical facts included in this release, are forward-looking statements. All forward-looking statements speak only as of the date of this release. Although Antero believes that the plans, intentions and expectations reflected in or suggested by the forward-looking statements are reasonable, there is no assurance that these plans, intentions or expectations will be achieved. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in such statements.

Antero cautions you that these forward-looking statements are subject to all of the risks and uncertainties, most of which are difficult to predict and many of which are beyond the Company's control, incident to the exploration for and development, production, gathering and sale of natural gas, NGLs and oil. These risks include, but are not limited to, commodity price volatility, inflation, lack of availability of drilling and production equipment and services, environmental risks, drilling and other operating risks, regulatory changes, the uncertainty inherent in estimating natural gas and oil reserves and in projecting future rates of production, cash flow and access to capital, the timing of development expenditures, and the other risks described under the heading "Item 1A. Risk Factors" in Antero's Annual Report on Form 10-K for the year ended December 31, 2014.

For more information, contact Michael Kennedy — VP Finance, at (303) 357-6782 or mkennedy@anteroresources.com.
